## CONTENTS TO VOLUME 74

*Vol. 74 No. 1 July 1996*

OSMAN M. KAMEL / Expansion of the Planetary Mutual Distance Raised to Any Negative Power by the Method of Symbolic Differential Operators 1–6

LALMANI, R.P. SINGH, RAJESH SINGH and ALTAF AHMAD / Whistler Observations of the Quiet Time Plasmasphere–Ionosphere Coupling Fluxes at Low Latitude 7–15

A. I. KALINICHENKO, S. V. VASILYEV and V. P. VASILYEV / Surface Thermoelastic Erosion of Atmosphereless Solar System Bodies under Bombardment by Multicharge Cosmic Ray Ions 17–33

GU ZHEN-NIAN / The Study of Excitation of the Earthquake to Earth's Rotation 35–47

WALTER FERNÁNDEZ, HUGO HIDALGO, GENARO CORONEL and EVELIO MORALES / Changes in Meteorological Variables in Coronel Oviedo, Paraguay, During the Total Solar Eclipse of 3 November 1994 49–59

PHILIP J. STOOKE / Topography and Geology of Hyperion 61–83

*Vol. 74 No. 2 August 1996*

D.I. STEEL and B.G. MARSDEN / Astrometry of Near-Earth Objects Using Small Telescopes 85–92

JOHAN WARELL / Structure of the Martian North Polar Cap and Vernal Hood System at $L_S$ 61°–66° of the 1995 Apparition 93–107

S.K. MIDYA, S.C. GANDA, G. TARAFDAR and T.K. DAS / Nature of Variation of Antarctic $O_3$ Depletion and Its Correlation with Solar UV Radiation 109–113

D. BHAUMIK, J.N. CHAKRAVORTY, S.K. MIDYA and S. CHAKRABORTY / Evening Twilight OH (7,2) Band Emission at Calcutta and Its Covariation with LI 6708 Å 115–121

S.K. MIDYA and R. CHATTOPADHYAY / The Effects of Solar and Ionospheric Parameters on Seasonal Variation of 6300 Å Line Emission at Calcutta 123–129

PHILIP J. STOOKE / Linear Features on Asteroid 951 Gaspra 131–149

S. OLSZEWSKI / Equivalence of Energy-Time and Momentum-Position Phase Spaces of the Solar System 151–173

E.P.A. SULLIVAN / Reduction in the Nuclear Quadrupole Resonance Signal Level at Resonance Frequency of 30 MHz, Concomitant with Impact of Comet Fragment With Jupiter 175–182

*Vol. 74 No. 3 September 1996*

S. YABUSHITA / On the Efficiency of Nuclear Explosives in Deflecting the Orbits of *NEOs* 183–189

J. RAITALA / Chocolate Tablet Aspects of Tectonics of Meshkenet Tessera on Venus 191–214
HARI OM UPADHYAY and K.K. MAHAJAN / Response of Venus Ions to Solar Wind Dynamic Pressure 215–222
KAZIMIERZ M. BORKOWSKI / The Persian Calendar for 3000 Years 223–230
S.V. SINGH, G.S. LAKHINA and R. BHARUTHRAM / Low-Frequency Electric Field Fluctuations Excited by Ring Current Protons 231–242
MARK R. KIDGER / The Leonid Outburst of 1996. *Does It Improve Prospects of Leonid Storm in 1998?* 243–252

Information for authors 253–254

Author Index 255

Volume Contents 257–258
